### REPORT RUSSIA PROVIDES FLEET

Reported made in North China waters in two consignments during September and October. The craft now are said to be hidden in various North China ports.

The newspaper said that Teng Shaoxiang, former Chinese Nationalist commander of the cruiser Chungking, which Britain presented to the Chiang Kai-Shek regime at the end of World War II, is supervising the assembling of the Communist fleet.

The transfer reportedly was part of a secret agreement reached between Moscow and Peking early this year.

### STASSEN ARRIVES AT SCENE OF RIOTING

(Continued from Page One)

whose marriage to a Moslem school teacher were reported to include 15 Europeans and four Malaysians. Hundreds were injured, with 200 persons being hospitalized.

### Hunt Ringleaders

The strict curfew was put into effect in the main riot district on the east side of the city where police are conducting a house to house search for ringleaders.

Authorities ordered all vehicles off the streets.

In another district police opened fire after rioters set a military vehicle ablaze.

The Dutch girl, 13-year-old Maria Berthe Hertogh, took off secretly yesterday by plane with her mother for Holland. Mrs. Adeline Hertogh left with her daughter, who had become known as the "Jungle Girl", after the supreme court dismissed an appeal by the girl's Moslem foster mother who sought to remain her custody.

Previously the court had annulled the girl's recent marriage to the 21-year-old Singapore teacher.

The foster mother, a Malay nurse, had cared for Maria Berthe for eight years. The girl came into her charge when she was separated from her parents after the Japanese overran Java.

### RIGID CONTROLS BEING PLANNED BY PRESIDENT

(Continued from Page One)

Even this was considered too small in congress. Sen. Douglas (D) Ill., said administration plans to call 100,000 men a month were insufficient. Sen. Johnson (D) Texas, charged that the United States has prepared a "chicken wire fence" when it needs a "wall of armed might."

Johnson asserted that the U. S. is already at war "with all the military strength and human resources behind the iron curtain." He demanded that "hard-driving, head-knocking, forward-moving leadership" replace "double talk and confusion."

### To Give Vast Authority

Administration officials said that the president's declaration of a state of emergency will give him vast authority over manpower, resources, prices and wages.

The officials said the chief executive already plans immediate imposition of "selective" price controls.

First objective of such controls probably will be the automobile industry, in which General Motors and Ford refused to roll back recent price increases.

Other imminent controls will cut civilian tin supplies about 25 percent and restrict prices and supplies of copper, steel, lead and zinc. Controls may also be forthcoming on sulphur and manganese.

### Discuss Price Situation

Federal stabilization officials meet today with leaders of the automobile industry to discuss the price situation, and meetings are set for the first week next month with tin, lead, zinc, steel and copper producers and fabricators.

Senate finance committee chairman George (D) Ga., one of the presidential conferees, predicted general imposition of price and wage curbs by Jan. 1.

A White House aide said he regarded such curbs as inevitable and that "a large area of opinion" agreed.

The officials said price curbs will apply to food and other necessities of life as well as to materials needed for defense.

### ACHESON TO DEMAND SPEED ON REARMAMENT

(Continued from Page One)

speeding the productive effort, using available manpower adequately and allotting the work that can best be done by each country in the production of arms.

He may also propose a method of allocating strategic and critical war production supplies to prevent skyrocketing prices and to assure that each member country has its needed supply.

This question was one of the major ones figuring in last week's talks between President Truman and British Prime Minister Clement Attlee.

### Create Supreme Commander

Reports from London indicate that a form of agreement on defense planning and the creation of a supreme commander—undoubtedly Gen. Dwight D. Eisenhower—has been reached by the pact's foreign ministers' deputies and the military committee.

The plan will require formal ratification by the foreign ministers' council in Brussels.

The problem of Germany cannot be taken up there with the Germans, since they are not part of the alliance. But the high commissioners of the U. S., Britain and France now controlling Germany will be there and discuss means of handling the German problem.

(Continued from Page One)

and aircraft fought a night-long battle and succeeded in driving back Communist attacks with loss that to a point only 18 miles north of the 38th parallel and 48 miles above South Korea's jittery capital of Seoul.

The Red force was pushed back southeast of Sibyon, an important highway junction midway between the two main railroads to Seoul from the north.

Field dispatches did not state whether the enemy force consisted of Chinese or North Korean troops. Nor was the size of the Communist group disclosed.

There have been unconfirmed reports of units of China's million-man invasion army operating equally close to the 38th parallel, but the bulk of the Chinese forces have remained farther north.

There have been no reports, confirmed or otherwise, of any Chinese crossing the north-south boundary to date.

### POLICE PROBE CONFESSION IN GIRL SLAYING

(Continued from Page One)

ted Hunkin's confused story but finally accepted it when he admitted to previously undisclosed details of the murder.

In reconstructing the case, the youth told police he had been driving about Kalamazoo in a stolen car on the night of the slaying. He said he saw Carolyn in the lunchroom when he stopped for a hamburger and coffee.

Hunkins was quoted as saying: "I waited outside for her and when she came out, I asked her to go with me, but when she said she wouldn't, I grabbed her and started to twist her arm."

Hunkins told police Carolyn "screamed and yelled" but nobody could hear her because of the raging snowstorm.

The youth further confessed that he forced the girl into his car and hit her with a wrench when she continued to scream. Hunkins then related how he drove to a desolate lover's lane where Carolyn regained consciousness and resumed her struggle for life.

He added: "So, I dragged her out of the car and over into a field."

According to his confession, Hunkins then attacked and strangled Carolyn with one of two scarves she was wearing. A blue babushka was found knotted tightly around the co-ed's throat when her body was found.

### U.N. TO APPROVE MOVE FOR 'CEASE-FIRE' ORDER

(Continued from Page One)

ern countries sponsoring a resolution calling on Communist China to get out of Korea are marking time and will wait until the cease-fire negotiations have run their course.

#### Skeptical on Prospects

Despite the optimism of Sir Benegal Rau of India, who yesterday said Peking spokesman Wu Hsiu-Chan told him that Communist China wants peace with both the United States and United Nations, the majority of delegates are skeptical of prospects for a cease-fire. They believe that the lull in Korea is merely a prelude to a big knock-out offensive from Red China.

U. S. sources indicated that the second resolution of the 13 Asia-Arab nations will be opposed. This proposes that the whole range of Far East problems be taken under consideration in a conference attended by the big powers and India and Egypt.

Although the resolution in its latest form dropped Communist China as the government to be seated, at the conference, the intention to include Peking in the proposed conference is still there. Predictions were made at U. N. that this resolution will be defeated by a large majority.

does in the nightmarish 13-day breakout battle from the Chinese trap around the Changjin Reservoir.

The Army units later pulled back from the perimeter to board the transports themselves.

Though the Chinese Red hordes were closing in on the beachhead from northeast and northwest of Hamhung, the withdrawal to the sea of Japan was being carried out in orderly fashion, as far as was known in Tokyo.

No Direct Dispatches (Up until a late hour Wednesday no dispatches mentioning the evacuation from Hungnam had been received direct from any correspondents in Korea. These newsmen apparently remained under a security embargo regarding the Hungnam-Hamhung beachhead.)

The huge withdrawal by sea was under preparation since the first Marine, Army Seventh Division and British Commando troops commenced their historic breakout drive from Hagaru at the south end of the Changjin Reservoir, 40 air miles above Hungnam.

Several days ago, Vice Adm. Charles T. Joy, commander of the U. S. Far East Naval Forces, announced that the U. N. armada was standing off Hungnam, ready for any task it would be called upon to perform.

Only last Monday, Gen. Douglas MacArthur, in a one-day flying inspection trip to Korea, landed at the airfield outside Hungnam and there conferred for two hours with Maj. Gen. E. M. Almond, commander of the Tenth Corps.

### Wampum P.T.A. To Meet Thursday

Members of the Wampum Parent-Teachers Association will meet Thursday evening at 8 o'clock in the music room of the school. The evening's program is under

the direction of Leslie Marietta, music supervisor of the school, and the band and girls ensemble will be featured.

At one time circuses were sometimes known to sell the pocket picking privilege to the gang which made the highest bid.

### A SOUND IDEA FOR THE HEAD OF EVERY FAMILY

If the head of every family had an opportunity to see the advantages of advance arrangement for funeral service—as we see them—not a family in New Castle would be without this protection.

It is not a new idea, but it is a very sound one. It is only a matter of going to your funeral director in a calm and normal frame of mind, and making arrangements according to your best judgment. It is a simple thing to do then, but it leads to a much better understanding—and to a service that is far more apt to prove satisfactory.

It costs you nothing whatever to give your family this protection—which is one more reason why they should have it.

## MUNDZIAK-PSZENNY DOUBLE RING RITE

An impressive double ring ceremony united the lives of Miss Genevieve Mundziak and Stanley Pszeny on Saturday, December 2, in the S.S. Philip and James church.

The bride is the daughter of Mr. and Mrs. Anthony Mundziak, 1237 Finch street, and the groom is the son of Mr. and Mrs. Ignatz Pszeny, 104 West Miller avenue.

Rev. Fr. V. V. Stancelski heard the exchange of vows at 2 p.m., with yellow mums and pompons decorating the church altar for the ceremony.

Given in marriage by her father, the bride appeared in a gown which she had designed and made herself. A yoke of lace and rhinestones enhanced the fitted bodice and long sleeves tapered to points at the wrists. The satin skirt featured two bands of the same material at the hemline and ended in a short train. A Juliet cap held her fingertip veil of illusion, and she carried a satin and lace muffed topped with two white orchids and lily of the valley. She wore a rhinestone necklace and earrings, the groom's gift, and observed the traditional something old, new, borrowed and blue.

Miss Clara Dombroski attended the bride as maid of honor, attired in a moss green gown with satin bodice and faille skirt. Pretty accents were its sweetheart neckline, cap sleeves and full skirt. She wore a matching bonnet and mitts, and carried a white satin muffed covered with yellow roses and pompons.

Louise Kolodziej served the groom as best man.

A dinner was served to guests at the Polish Falcon hall at 4 o'clock, with the evening reception held at the same place at 7:30 o'clock, with 350 guests in attendance.

The bride and groom are residing for the present at 104 West Miller avenue. Both are graduates of the New Castle Senior High school. Mrs. Pszeny is employed at the J. C. Penney company, and Mr. Pszeny is affiliated with the Bossert company.

## BRAINS UP YONDER

Dr. Harold C. Urey, atomic scientist and Nobel Prize physicist, said in Miami he believes life exists on other planets. His study of the universe, he said, leaves little doubt of that. What's more, he doubts that the human race is the most intelligent form of planetary life.

That's the best news heard in weeks. The human race certainly hasn't been acting like a particularly intelligent species lately. It is good to know there may still be hope for the universe.

Many horrifying pictures of invasion of the earth by men from Mars have been painted. They have invariably been described as beasts that would destroy and subjugate. But perhaps little men from other planets will come on a mission of good will, to help straighten out the mess.

Is this the explanation of "flying saucers"? If these are space ships from other planets, they have shown no manifestation of hostile intent. Here may be a ray of hope.

## USING ATOM BOMBS

President Truman has said he would not hesitate to order atom bombs dropped if necessary for the safety of the United States. It was this statement that brought Premier Attlee of Great Britain to Washington on the double-quick. It is interesting to assay the opinions of experts as to why this weapon has not been used against the Chinese aggressors in Korea.

Early in the fighting in Korea Senator McMahon, chairman of the Congressional Atomic Energy Commission, said the bomb is "primarily a weapon to strike at the sources of power or at troops so massed as to furnish a target."

R. E. Peierls, president of the British Atomic Scientists Association, calls the bomb "most ineffective" in military action such as that in Korea because of the probable absence of any center "vital for the conduct of the present operations."

Gen. Leslie R. Groves, wartime head of the atomic bomb project, agrees that to find suitable targets for the bomb is difficult.

An editorial in the Bulletin for Atomic Scientists refers to the "utter uselessness of the atomic bomb unless it could 'destroy the fighting capacity of the Communist Army.'"

Hanson W. Baldwin, a military analyst, writes: "The use of the atomic bomb would be almost certain to consolidate most of Asia against us."

Eleven faculty members of Harvard and the Massachusetts Institute of Technology declare: "Reliance by the United States on atomic warfare may weaken the morals and confidence of our European allies" and "an atomic war would almost certainly result in the obliteration of our closest ally (Britain)."

It seems the experts are trying frantically to relegate the atom bomb to the status of poison gas, which was tried in World War I but has not been employed since. But there can be no doubt that Russia will disagree with these views as to the functional value of the atom bomb as soon as the Reds amass a sizable stock pile of this weapon.

## WARN ON FIRE PRECAUTIONS

Yule celebrants today were urged by the National Fire Protection Association to observe simple fire safety precautions in order to cut down the epidemic of fires which plagues the nation every year during the holiday season.

The NFPA, a non-profit technical and educational organization devoted to the reduction of loss of life and property by fire, blamed little acts of carelessness for most holiday fire tragedies.

Warning that the Christmas tree, once it begins to dry out, becomes more of a fire hazard every hour it is in the house, the association offered suggestions to eliminate the dangers which frequently cause Yule fires.

The tree should be fresh when brought into the house—shortly before Christmas. It should be taken out as soon afterwards as possible.

Don't get any larger tree than is needed, because the larger the tree, the greater the hazard. Flammability of the tree can be reduced by cutting off the base of the tree at an angle, at least one inch above the original cut, and setting it in a well-filled tub of water. In addition, the tree should be well-supported and located away from sources of heat such as fireplaces, radiators and television sets.

Never light candles on the Christmas tree or near other Yule decorations. Christmas lighting sets should be checked carefully for broken sockets, loose connections or frayed wires. Be sure all lighting is turned off when going out, or before retiring.

News item says a fellow bought a seat on the New York stock exchange for \$49,000. The little lady wants to know what kind of antique it is—Chippendale or Sheraton?

One political party has held power in Uruguay for 85 years. Running against it is just so much healthful exercise.

Bees, we read, hate the smell of alcohol. So if you see one hanging around the neighborhood tavern, take another look. It's probably a wasp.

It is reported that an important atom scientist has escaped from Russia and is now in the United States. Here's hoping that he brought back with him some of those secrets which had recently been stolen in the U. S.

## Franco Seeks To Divert Attention

A deliberate attempt by Generalissimo Francisco Franco to divert public attention from a troubled home front was seen today in his strange demand that Great Britain return Gibraltar to Spain.

The Spanish dictator's proposal caused hardly a ripple of excitement in London. Seasoned diplomats and observers remarked that the centuries-old practice of "twisting the lion's tail" for domestic political purposes has never gone entirely out of fashion despite the fact that Britain is an empire no longer but an impoverished commonwealth at best.

They likened Franco's move to the movement recently launched by King Farouk of Egypt to abrogate the Anglo-Egyptian treaty of 1936 and chase British troops out of Alexandria and Suez.

British officials were outspoken in the case of Farouk. They claim that his political position is so weak and his personal popularity at such a low ebb that he has been driven to whip up a nationalist fervor, and verbal attacks on Britain furnish an easy and harmless formula.

Internal Unrest Exists  
So far as Spain is concerned, Franco's dictatorship may be reasonably safe but there is no question that internal unrest exists, mainly because of the country's perilous economic situation.

Franco has made tacit admission of this by his appeals for funds and food supplies and his demands for inclusion in the North Atlantic defense system.

This attitude has replaced his former aloofness.

Ever since United Nations members withdrew their ambassadors from Madrid, Franco has maintained a strict isolationist attitude and again in his speech that

## The Parent Problem

By Garry C. Myers, Ph. D.

## TRAIN TODDLER TO AVOID STREET

Yesterday we observed the heartrending picture of so many little children under five or six being maimed or slaughtered in the streets right by their homes and often in the sight of their parents. We asserted that most of these precious little children could be kept whole and alive if their parents trained them effectively to avoid automatically going beyond certain clearly designated boundaries, by means of physical pain applied instantly and without exception by self-disciplined parents who are consistent.

Now this is not just a theory from an armchair child psychologist. It worked with our own children when they were very young. It has worked with our eleven young grandchildren. Scores of mothers, while students of mine at Western Reserve University some years ago, reported that it worked with their toddlers. Hundreds of other young parents from all over the United States and Canada have written to tell me that it works. Practically all of these parents have expressed amazement at how few spankings have been necessary and how permanent are the effects.

Followed Advice  
For example, a father writes of his son, 5½: "We followed your advice on teaching the meaning of 'No' to our boy when he was much younger, as explained in your bulletin, 'How To Teach Child Meaning of No.' (which we received from you by writing you for it and enclosing a self-addressed, stamped envelope); and also several times in your column. It was very simple and 100 per cent effective, and it didn't take many spankings, either. We don't spank him now, but the lesson it taught is still with him. Until recently, when we have allowed him more freedom, he never stepped out of the yard without permission. How this can remain with him is a puzzle to me, as he surely can't remember the spankings he received some years ago."

Ten or Twelve  
After our own children had reached the age of ten or twelve, we asked each one when alone with us how many spankings he or she could remember. The daughter could not recall a single one, but she had received a few before she was four. The boys each could remember one. Both instances the parents could recall vividly, also, as they occurred very late—when each youngster was nearly five—and were of unwise choice, no doubt. A good measure of the efficacy of spankings is how often they have been lost in the child's conscious memory but remembered in the permanent good results.

Yet thousands of children who at four or five continue to run into the streets unrestrainedly may have been spanked often, but doing so, sometimes brutally, but they were not spanked consistently; not always spanked immediately; and without exception.

They may have often run into the street without being spanked for the first time or run there ever so many times thereafter without receiving instant pain. With so much fun from adventure and at escaping the anxious, shouting parent, why should an occasional pain experience deter this child from street dangers? Any parent who wishes to train a toddler to avoid the street and to gain safety habits useful for him the rest of his life must let everything else go and follow a carefully-planned program literally, in order to get good results. Isn't a little child's precious life worth saving?

There are big thrills in each person's life. We remember graduating from High School and going to college the first time. First day of working or was it the first pay day that is best remembered? Then the time when the preacher asked a lot of questions that the "little woman" answered for us both. Then the first child was born. . . . and along comes Uncle Sam and takes us on a little trip to Fort Meade. . . . The first time we heard and saw enemy shells coming in. Then that grand day when the officer shook our hand and thanked us all for being in the service and we grabbed that little piece of paper and hugged it close. . . . And now it's a new house.

Life is what you make it. . . . there is almost always a silver lining somewhere. . . . it takes time. . . . Right today our joy of moving is clouded by clouds from over Korea. . . . Those men over there, many are wearing the colors of "Old Glory" . . . our thoughts are with them and our prayers each day ask that they be given power to help keep Free Nations free. But they can't do it all. . . . we here must buckle down. . . . keep our power clean and free from aggression. . . . investigations can come after we have protected our right to have investigations. As we enjoy living may we all join together in keeping that joy living and not a remembrance.

## Coalition Cabinet Proposed

WASHINGTON, Dec. 13.—With a parliamentary government, the United States would have had a coalition cabinet within a few days after the Korean crisis. Much greater responsiveness to changing needs and demands is inherent in the parliamentary system, under which the executive and his cabinet members are also legislators elected by the people.

While it was of greater magnitude and the timing of events far swifter, there is an analogy in the fall of Norway and Hitler's sweeping campaign in Belgium, Holland and France in 1940. On May 10 of that year Winston Churchill, who led the Conservative opposition to Neville Chamberlain and his Munich policy, became prime minister. Leaders of the Labor party were brought into a coalition cabinet which carried on throughout the war.

Prove Irresponsibility  
Sometimes it seems as though we were determined to prove the irresponsibility of our system of divided powers. At the moment Secretary of State Acheson was participating in the critical conferences with Prime Minister Attlee and President Truman, the "Acheson must go" chorus increased in volume.

Significantly in this case, the leader is Senator Irving M. Ives of New York. A Republican, Ives supported the bipartisan foreign policy. He voted for Acheson's confirmation.

Ives says politics has nothing to do with his resolution calling for Acheson's removal. The decision to press the resolution came (1) because he was convinced that Acheson no longer has the confidence of the country and (2) because the present secretary cannot cooperate with Congress.

In this connection it is interesting to recall that Ives was one of the seven Senators who signed the statement last June drawn up by Senator Margaret Chase Smith of Maine condemning McCarthyism. This won him the disfavor of the Conservative leadership of his party, and the cynical now believe he is working his passage back.

Working Coalition Impossible  
Anything like a real working coalition is difficult or impossible under our constitution, which rigidly compartmentalizes the functions of government. If a president calls in the opposition, he seems to surrender authority fixed in fundamental law.

But many are now saying the time has come for President Truman to make the effort. No matter how the Korean affair is ended, the months ahead will be full of strain and trial. The president could turn to men in both parties and put on them some of the harsh responsibility for government. Thereby he would strengthen the administration.

First-Rate Men Available  
If Acheson is to go, several first-rate men are available. Among them Paul G. Hoffman, former European aid administrator; John Foster Dulles, Republican adviser to Acheson; Governor Adlai Stevenson of Illinois; Senator

Henry Cabot Lodge of Massachusetts, a strong defender of the bipartisan foreign policy and an advocate of much more rapid preparedness.

For Secretary of Agriculture: American Farm Bureau Federation; Senator Richard Russell of Georgia; Senator George Aiken of Vermont. These men oppose in one degree or another the so-called Brannan farm plan. But in the crisis of the next two to five years this is irrelevant, since production will be the only goal.

For Secretary of the Treasury: Marion B. Folsom, chairman of the committee for economic development and treasurer of Eastman Kodak; Senator Harry F. Byrd of Virginia; Beardsley Ruml, chairman of Macy's in New York and also with the committee for economic development.

For Secretary of Labor: Cyrus Ching, who has demonstrated his skill as labor mediator and administrator; Senator Wayne Morse of Oregon; Senator Ives.

This list could be multiplied many times over. And as for the president's frequent complaint that he gets turned down when he calls on men to serve, surely in view of what is happening now no one would dare to say no. Young men are being drafted every day to fight and die.

But it is very obvious that such changes will not take place. One reason is the temperament of the president. And another reason is Mr. Truman's conviction, for which considerable evidence can be presented, that under the constitution coalition government is not practical.

Since this is so, it seems to me dangerously irresponsible to go on with the sniping against individuals. It merely weakens the nation at a time when we are in desperate need of all the strength we can muster as Americans and not as Democrats or Republicans.

## BOYHOOD AND MANHOOD

Boyhood and manhood! A few years apart! Mischievous, noisy and wild at the start.

Eager for knowledge and willing to learn. Needing some guidance the right way to turn. Splendid material some day to use.

To waste it or save it? Our problem to choose. Boyhood and manhood! A few years to wait!

The friends the boy finds will determine his fate. Trained to right thinking—and do it we can—

A boy of today, for our country, a man!

Saved for high purpose—and little the cost—Not wasted, unvalued, and carelessly lost.

Boyhood and manhood! And just a few years. The span that divides them! How short it appears!

The men of tomorrow these boys of today. Become as we guide them or leave them to stray. They are building material for liberty's wall!

The freedoms we cherish depend on them all. (Copyright, 1950, Edgar A. Guest)

## "Voice Of The People"

(By HOLMES ALEXANDER)

WASHINGTON, D. C., Dec. 13.—"Fire Acheson" is the keynote of the articulate letters and telegrams now pouring in upon virtually every U.S. Senator. Demands for the Secretary's dismissal are not confined to any one region of the country nor to either political party. The demands are nation-wide and they are omni-partisan.

These are not "think statements" of your reporter, but are the result of a shoelather survey which entailed the reading of scores of messages and the interviewing of Senators and their mail-handlers. Some Senators are under the necessity of answering their mail by the use of form letters. If we examine the subject matter of the form letters and also the messages which inspired them, we get a pretty fair idea of what America is thinking about the Far East crisis. The chances are that your own Senator today is writing to people who:

## What Letters Demand

1. Demand that Acheson be fired and are willing to have Mr. Truman impeached if that is the price of Acheson's scalp. Typical comment: "If Harry doesn't fire Acheson, we will fire Harry. . . . Unload Acheson and, if necessary, impeach Truman."

2. Want us to pull out of Korea. Typical comment: "No need for this useless sacrifice. . . . Dunkirk our boys out of that trap. . . . Empty talk of military high brass and politicians uninteresting. . . . Want Congressional action to bring the boys home NOW."

3. Are not sure what ought to be done, but have no confidence in the Truman administration. Typical message: "I am proud of my country and of my boy in the Navy, but not proud of the men who represent us in Washington. . . . I have seven sons. Must they be sacrificed for the terrible foreign policies of our present government? . . . We are desperately in need of statesmanship."

4. Insist that the United Nations be either strengthened or abandoned. Typical comment: "This UN stuff is so much foolishness as long as we let any Iron Curtain country foul it up. . . . Are getting only token help from UN members while Asiatic hordes massacre our boys."

5. Think we ought to fight Russia instead of Koreans and Chinese. Typical comment: "Russia is our real enemy. . . . It is time we had an understanding with Russia. . . . Either they call off their dogs or U.S. goes straight to Moscow."

6. Insist that we instantly go into full mobilization for all-out war. "Stop the dilly-dally. . . . Give 'em hell. . . . Give them the A-bomb if it will help the boys on Korea."

## Equally Significant

Equally significant are some of the things that the letters and telegrams don't say. I did not find anywhere a criticism of Gen. MacArthur. I did not find a single letter which expressed terror at the thought of World War III and A-bomb retaliation. If war becomes inevitable, the writers seem ready to face it rather than appease the aggressor. There was only one letter which proposed that we accept world Communism as a fact and make the best of it.

These messages do not constitute a scientific survey of public opinion, but they show the sort of pressure being exerted on the lame duck Congress. They indicate that the people at home are fully alert to the crisis and are, in fact, several jumps ahead of the law-makers and several lengths ahead of the Administration.

What we have here, all told, is a situation of total confusion. The people are demanding action, but the old Congress is marking time till the new Congress assembles. American GI's are fighting Reds in Asia, but Democrats are fighting Republicans in Washington. The Administration is in the position of a government which has "fallen" from popular esteem, but it must remain in office for more than two years to come. The letters quoted above could not go through the mail except in a country that valued its freedom. But the great Federal establishment, which guarantees all our freedoms, is bogged down with lame ducks in Congress, in the White House and in the Cabinet.

## Looking At Life

By ERICH BRANDEIS

What all those hotter-than-thou folks do when they finally get to Heaven?

Down here on earth they are having a wonderful time looking for human defects, viewing with alarm, making much ado about nothing.

What will they find to beef about up there where everything is perfect?

There IS sin down here, of course. There IS evil. There IS imperfection of many kinds.

But the human race will never be perfect.

If it were, there would be no need for a religion which preaches forgiveness, repentance, tolerance. There would be no jails, no courts, no lawyers, no poorhouses.

A perfect human race would live very monotonous lives. A perfect human world would be a world in which I personally would not care to live. I would be bored to death.

This is no apology for sin. I am against sin.

But to eliminate sin—or rather to alleviate it—it CAN'T be eliminated—we ourselves must be self-reformers. Crape hangers and long-haired reformers cannot do it for us.

Let us analyze sin for a moment. You and I have been exposed to sin all our lives.

There has been money to steal. There has been liquor on which to get drunk. There have been guns and knives with which to kill.

Have you and I thereby become thieves, drunkards, murderers?

It is not just fear of punishment that has kept us on a fairly straight and narrow path.

It has been something in our own make-up that has told us "Don't."

One of man's greatest human assets is his sense of responsibility, his inner voice which tells him when to stop.

Sometimes I think that those who LOOK for evil ARE evil.

For instance, Chicago. They are trying to have a new novel banned because it deals too frankly with sex.

Right in Chicago I have seen plenty of sin, filth, and lewdness. But, also in Chicago, I have seen thousands of decent, law-abiding people who would never even think of reading a dirty novel or looking at those nauseating pictures in the newspapers of some of Chicago's night clubs.

Woe unto the world because of offences! for it must need be that offences come; but woe to that man by whom the offence cometh! —Matthew 18:7.

## Gaston Post Told About China By Major McClymonds

Perry S. Gaston Post, American Legion, was addressed by Major Ernest McClymonds, a member of the post, on his experiences in China during the last war, where he was with the U. S. Air Corps, at the semi-monthly meeting of the post held in the Legion Home Tuesday evening.

Major McClymonds stated that the Chinese are a friendly people but that most of the population is illiterate, and has always led a hard to mouth existence.

He stated that the government has also been more or less corrupt, and that many evidences of this was found during the stay of the U. S. army in China during the war. Supplies which were given to the Nationalist army had a way of disappearing, and it was found that they had been sold by someone to the communists.

There was little industry and it was of a most backward nature. Missions were sent over from the United States to show the most improved methods, but as soon as they left, the natives reverted to their old methods.

Plans were completed by the post for the children's party on Friday evening, December 15, when the children of the members will be entertained and furnished with a treat by the post and auxiliary. The committee from the post consists of J. Nick Speed, Earl C. Moffatt and Joe Wallace.

Plans were also made for the distribution of gifts to the children of hospitalized veterans, and for the post party on December 26.

## Harvard Crimson Charges Attempt At Censorship

CAMBRIDGE, Mass., Dec. 13.—(INS)—Harvard's Crimson was red with indignation today over what it charges was an attempt by authorities at Radcliffe College for Women to impose censorship on the Harvard undergraduate magazine.

According to the Crimson its "bureau chief" at Radcliffe, blonde R. Deborah Lebowitz of Long Island, N. Y., was ordered by Radcliffe President Wilbur K. Jordan to resign for writing a Crimson story "not in the best interests of Radcliffe."

This, said Crimson President Douglas M. Fouquet, constituted attempted censorship by threat. He said Miss Lebowitz had been threatened with expulsion if she didn't stop writing for the Crimson.

A Harvard senior, John J. Sack, was appointed to replace Miss Lebowitz and the Crimson in effect told Radcliffe to try—just try—to sack Sack.

"Radcliffe cannot threaten Sack with expulsion," said Fouquet sternly.

The article involved in the alleged censorship move concerned establishment at Radcliffe of a "great issues" course encompassing a general knowledge course for senior only. Fouquet said Radcliffe President Jordan apparently didn't lie the way Miss Lebowitz told about it. President Jordan had no comment.

## To Pray For Peace At First Methodist

Dr. A. Culmer Schultz, pastor of the First Methodist church, has announced that the next three noon day meditation periods at the church, December 14, 21 and 28 will be used as a time for prayer and meditation concerning world peace.

Instead of conducting the services as in the past, the entire period will be given over to a session of prayer for peace in the world. Dr. Schultz will bring a short meditation to the audience followed by the prayers for Divine help in this time of trouble in the world.

The service will not be confined solely to members of the church, but all church goers of the city are invited to spend the time from noon until 12:30 for the next three Thursdays in prayer for the alleviation of the present world crisis.

## Report Two Held For Plotting To Kill Gen. MacArthur

TOKYO, Dec. 13.—(INS)—The Tokyo newspaper Yomiuri reported late today that two members of Japan's police force were arrested on suspicion of plotting with Communists to assassinate Gen. Douglas MacArthur.

The suspects, described as reserve policemen, were said to have been taken into custody at Hachinohe City in Aomori prefecture (province) in the northern part of Honshu, Japan's main island.

The arrests were made by Japanese police, according to Yomiuri which said the two men were jailed.

United States Occupation Army counter-intelligence agents were said to have been called in to the

case by the Japanese authorities and to have launched an investigation of the purported plot to kill the United Nations supreme commander.

Names of the two arrested Japanese reserve policemen were not yet given out.

Nor was there any immediate comment on the report from Gen. MacArthur's Tokyo headquarters.

### FLYING PYTHONS ARRIVE

WASHINGTON, Dec. 13.—(INS)—Two flying pythons have arrived at the Washington Zoo, but no pink elephants have been reported as yet.

The snakes, as a matter of fact, were not the kind met by inebri-

ates, but amethystine pythons from New Guinea. They were shipped from Australia by plane.

## Federal Officials On Stabilization Discuss Car Prices

WASHINGTON, Dec. 13.—(INS)—Federal stabilization officials meet with major automobile manufacturers today amid reports that the government is preparing to clamp ceilings on new car prices.

The action may be the first in a series of selective price controls orders to be issued while adequate administrative and enforcement machinery is being set up for a general price-wage freeze. Metals controls are expected to follow closely any automobile action.

Top administration officials are convinced that over-all controls

are inevitable to curb inflation, but they believe it may take about six weeks to get ready for an across-the-board program.

In the meantime, economic stabilizer Alan Valentine and his aides are expected to try to hold the line against further inflation by a few mandatory price control orders in certain selected key industries.

Indications that the automobile industry may be the first controlled came after General Motors and Ford rejected a government appeal to voluntarily suspend recent increases of five to seven percent in the prices of their 1957 models.

## Terror Again Grips Seoul

Vengeance Squads  
Terrorizing City;  
Many Residents Flee

By LEE FERRERO  
(U. S. War Correspondent)

SEOUL, Dec. 13.—An average of 18 murders a night for the past three nights have been attributed to Communist "vengeance squads" terrorizing the city.

The Red assassins have been striking against anti-Communist Koreans probably for vengeance before an anticipated civilian exodus from the South Korean capital.

Tuesday Seoul's police are screening virtually every one of thousands of refugees pouring into the city and have arrested 114 suspected North Korean Communist terrorists who have tried to slip into the city undetected.

Many of these already are identified as North Korean Reds who operated in Seoul during the Communist occupation last summer. A high ROK (Republic of Korea) army source tonight verified reports that strong "vengeance with fleeing refugees bent on squads" are infiltrating into Seoul destruction of South Korean government leaders.

Many have entered the city and have terrorized Seoul citizens who feel that the next knock at the door may be that of their executioners.

Police Commissioner Chun Duk Soo said he had no way of knowing how many other Red gunmen had eluded the tight police dragnet spread over refugee columns.

### Atmosphere Of Terror

The city itself is assuming an atmosphere of terror and imminent tragedy. Piles of food, clothing, furniture and other household possessions are stacking up on the north bank of the Han river.

The stacks belong to Seoul residents who are striving to get across the Han to begin again the long walk south to escape the Reds, a walk many of them made last summer.

A ferryboat was busily carting supplies and families across the river. There, on the south bank of the Han, Koreans load their possessions on their backs and begin trudging down the road.

The emergency was reflected in the national assembly which voted Tuesday to reduce the number of members necessary for a quorum. This move was necessary because 27 members still are missing and five more were killed by Red guerrillas in South Korea.

Tuesday one delegate emotionally reported to the assembly that Assemblyman Lee Pan Yul was

killed in southernmost Korea three days ago while making an inspection trip with 11 police officers.

Apparently the Communist gunmen, whom Chun called "vengeance squads," have a priority list marked for death. And the men they are murdering are leading anti-Communists from various walks of life.

### National Pet Show Opens In New York

NEW YORK, Dec. 13.—(INS)—Celebrities took a back seat to dogs, cats, ants and birds yesterday at the opening of the national dog and pet exposition in New York. An invitation to the press to cover the event promised that there would be on hand "dogs, cats, fish, birds, chinchillas, hamsters, ant colonies and some celebrities".

By DR. W. A. WOMER

### BIG AND ROUND AND YELLOW

Sixty years ago Granddad never heard of grapefruit. He maybe had a drink of lemonade on the Fourth of July. Perhaps he had part of an orange at Christmas.

Grapefruit had not yet appeared in his life. He did not know anything about vitamins but he got them in ap-

ples and pears and peaches and pumpkins and vegetables from Grandmother's garden.

Grapefruit serves a good purpose nowadays. The juice is all right but it is probably better to eat the pulp, too. It is especially valuable for chemicals and vitamins.

Most people seem to like it at breakfast. Butch says that the time to eat it is now. He wants lots of sugar on it. The sugar helps the good cause along.

## Don't be HALF-SAFE

by VALDA SHERMAN

Many mysterious changes take place in your body as you mature. Now, the glands under your arms begin to secrete daily a new type of perspiration containing substances which will—if they reach your dress—cause ugly stains and clinging odor.

You'll face this problem throughout womanhood. It's not enough merely to stop the odor of this perspiration. You must now use a deodorant that stops the perspiration itself before it reaches—and ruins—your clothes.

As doctors know, not all deodorants stop both perspiration and odor. But Arrid does! It's been proved that the new cream deodorant Arrid stops underarm perspiration 1 to 3 days safely—keeps underarms dry and sweet.

Remember this, too: Arrid's antiseptic action kills odor on contact—prevents formation of odor up to 48 hours and keeps you "shower-bath" fresh. And it's safe for skin—safe for fabrics.

So, don't be half-safe. Don't risk your happiness with half-safe deodorants. Be Arrid-safe! Use Arrid to be sure. Arrid with Creamogen will not dry out, and it's so pleasant and easy to apply. Get Arrid today—only 39¢ plus tax.

# Acheson Will Go To Brussels

To Attend Parley On Europe's Defenses

WASHINGTON, Dec. 13.—(INS)—The State Department announced that Secretary of State Acheson will leave Washington by plane late Sunday for Brussels where it is hoped final plans for speeding Europe's defense will be approved. It has become apparent that the question of West German participation will be one of the major problems to be discussed by the foreign secretaries of the North Atlantic Treaty Council. The foreign secretaries are to meet Monday and Tuesday at the invitation of Belgium Foreign Minister Van Zeeland who is president of the council this year. Army Secretary Pace will attend the meeting of the defense ministers at Brussels Monday morning and a joint meeting with the foreign ministers in the afternoon. Defense Secretary Marshall and Gen. Omar N. Bradley, chairman of the Joint Chiefs of Staff, are unable to go because of the Far East crisis. Acheson is due to return to Washington immediately after the two-day meeting, probably arriving back in the nation's capital Wednesday. A unified western anti-Communist command, headed by Gen. Dwight D. Eisenhower, is expected to be formalized at the Brussels meeting.

# Pulaski P.T.A. To Meet On Thursday

Pulaski P.T.A. will meet Thursday evening, December 14, at 7:45 in the grade school building. Hostesses are Mrs. Shirley Garrett, Mrs. Jane Treese, Mrs. Emma Stuart, Mrs. Betty Hauger and Mrs. Helen Dubrasky. Mrs. Mildred Gallagher and Mrs. Mary Koosh are to furnish cakes for the penny march. Miss Evelyn Grell acted as president at the November meeting of the P.T.A. in the absence of the president, Mrs. Seth Vaughn who was ill. The meeting opened with prayer by Miss Evelyn Grell. Reports of different committees were given and routine business was transacted. Mrs. Dorothy Cox gave an interesting report on attending Lawrence County P.T.A. Council at New Castle. Mrs. Elsie Rodgers and Mrs. Rose Morris won cakes in the cake walks. The cakes were baked by Mrs. Marian Reese and Mrs. Dorothy Cox. At the close of the business meeting, a song service was enjoyed by all. Tasty refreshments were served by Mrs. Mildred Grell and Mrs. Amy Clark and committee. # THE FAMILY SCRAPBOOK

By F. E. ERNEST G. OSBORNE

## CHILDREN AND TRAFFIC

Raising a family in the city presents many problems. One that concerns us all is the protection of children from the ever-present dangers of traffic. Many of us feel that the only way to insure safety is to forbid our children crossing the street unless they're with a grownup. But as they grow older they'll want to be on their own. Teaching children to take responsibility for their own safety is an important job. The American Automobile Association has drawn up a list of safety "truths" that can be used as a guide in preparing our children successfully to meet the hazards of modern traffic.

Here are some of these more important safety "truths." (1) Look both ways before crossing. (2) Watch for turning cars. (3) Be extra alert on rainy days. (4) Play away from traffic. (5) Keep from between parked cars. (6) Walk on

the left, facing traffic, when using the side of the road as a path. Youngsters who practice such precautions can be trusted to take care of themselves and we parents will be relieved of the anxiety we naturally build up. The importance of grownups obeying traffic regulations cannot be stressed too much. Children tend to copy those around them. So if safety precautions are preached but not practiced, we are likely to find the young following the practice not the "preachments." (Copyright, 1950, United Feature Syndicate, Inc. Registered U. # Oak Street Board Plans For Party

Members of the Oak Street P.T.A. executive committee met recently in the teachers' room of the school. John Cornelius, school principal, and Mrs. J. J. Knapp, teacher representative, were in attendance. Plans were made for a Christmas basket dinner to honor the teachers and other personnel of the school and will be held in the school December 19 at 6:30 o'clock. The regular monthly meeting, which would have been held December 12, has been canceled in favor of the dinner. The committee in charge of arrangements consists of Mrs. F. Sholler, chairman, Mrs. J. McNicholas, Mrs. S. Vanassa, Mrs. B. Boreman, Mrs. Gale Borst, Mrs. M. Reid and all members of the program and executive

committees. The room mothers are asked to contact all parents. The Christmas treat for the children will be held December 21, with Santa to visit the school and distribute gifts. Mrs. J. Campbell is chairman of the project and will be assisted by Mrs. Gale Borst. The first Thursday of each

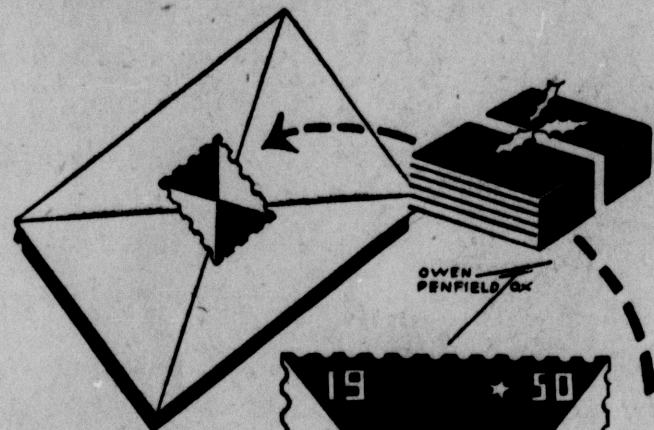

month has been designated as the meeting of the executive committee and will be held in the teachers' room of the school at 1:30 o'clock. Letters of appreciation were read from Mrs. R. H. VanOrden, state treasurer, and Mrs. George H. Ritler, chairman of the National Building Fund committee.

In washing your dishes, observe the old rule: glass first, silver second, China third. It will save nicks, chips and scratches which may result from a jumble in the dishpan.

# YOU MAY HAVE PIN-WORMS AND NOT KNOW IT!

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... ugly parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P.W. tablets do... and here's how they do it: First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily. Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for genuine Jayne's P.W. Vermifuge... the small, easy-to-take tablets perfected by famous Dr. D. # Do you have to be rich to own stocks?

When a corporation has nearly a million stockholders, they can't all be rich. Rich folks don't get together in a crowd that big. For example, in a corporation listed on the New York Stock Exchange, the facts are:

- ... over a quarter million people own just one to five shares, \$150 to \$750 worth, at recent market prices.
- ... not a single one of the million owns as much as one-half of one per cent of the company's stock.

Or look at the 400,000 stockholders in a company making automobiles. A third of them own less than \$1000 worth of stock. And two out of three stockholders of a big food company own less than 50 shares.

It's millions of average-income people who own shares in America's corporations. Owning stock means owning "a piece of a business"—risking one's money in order to share in the profits.

Despite this wide ownership, some people still ask, "Will my investment be welcome if my spare money will buy only a few shares?" The answer is simple, positive. Handling investors' orders for a few shares or hundreds is the day-to-day business of member firms of the New York Stock Exchange.

Helpful information is yours for the asking at any of their offices, which are located in 378 cities. They invite the opportunity to put their facts and experience to work for you.

## Advanced Gift Division Makes Excellent Record

An important part in the success of the 1950 Community Chest campaign was played by the Advanced Gift Division of the campaign organization.

This division contributed approximately \$41,000 to the \$127,603 raised during the campaign. This \$41,000 represents an increase of \$5,000 over the amount raised in 1949 by the division.

This portion of the campaign was launched prior to the regular campaign and the same persons that were included in this group were called upon again near the end of the campaign to give more, so that the goal might be reached.

The division contacted about 300 persons, called up to contribute larger sums to the campaign than the ordinary subscriber.

J. R. Preston acted as chairman of the division and was ably assisted by co-chairmen Alvin Shenkan and Joseph A. Green. A. H. Gonick, president of the Community Chest, expressed his thanks to these workers and the persons that helped them in the campaign.

Mr. Gonick also announces that letters of appreciation have been sent out to nearly 300 of the 1950 campaign workers, who did so much to make the past campaign one of the greatest successes in the long history of the Community Chest in New Castle.

Time and the progress it may bring will provide an answer to a question the whole world is asking... will the constructive potentialities of atomic fission outweigh its destructive ones? It is known, however, that the medical advances from recently acquired knowledge of the atom will be important... possibly providing a cure—at least—for such old enemies of man as cancer, polio, and TB. Madame Curie's discovery of radium brought a great advance to medicine. The new knowledge and "know-how" may bring advances of equal importance.

There is one thing we cling to in this changing world... our professional standards. We can accept atomic fission, new methods, new materials, insofar as they constitute progress but we're earnestly old-fashioned when it comes to putting reliability into the work we do for you.

## Big Problems For Legislature

## Reapportionment And Taxes Lead Problems Ahead

HARRISBURG, Dec. 13.—(INS)—Taxes and congressional reapportionment will be two of the foremost problems which lawmakers must solve during the 1951 session of the general assembly opening January 2. . . Governor-elect John S. Fine has indicated a belief that a general sales tax will not be enacted but is mum on which current levies are to be increased or new taxes boosted to pick up the more than \$100,000,000 needed for the next biennium opening June 1. . . Enactment of a tax program is a certainty but congressional reapportionment may become so confused that the solution will be shifted into a special session. . . The last congressional reapportionment was accomplished during a special session called in 1942 because lawmakers were unable to reach an agreement during the regular session of 1941. . . The law requires that members representing Pennsylvania in the session of congress opening in 1953 be selected on the basis of the 1950 census which cut three congressmen from Pennsylvania and reduced the delegation to 30. . . If reapportionment cannot be accomplished prior to 1953, then all members will have to run at large—on a statewide basis with the winning political party capturing all seats.

Initial investigation of the commercial possibilities of a u l m dredge from the Schuylkill river during the \$35,000,000 state-sponsored cleanup program reveal that the cost of reclamation will narrow the field. . . The coal contained in the residue is so miniscule that the cost of washing it from the muck in which it is imbedded is close to the prohibitive mark, according to a source on the cleanup project. . . A Kentucky firm interested in the possibility of using the coal for a dye base turned thumbs down on the idea after scanning the cost of reclamation.

The Department of Forests and Waters is ready to supply the huge Christmas tree which will grace the rotunda of the main capitol building for the Yuletide season. . . The department's foresters always provide the most beautiful tree which can be found on those acres of state-owned land which

are scouted each December. . . Maintenance workers from the Department of Property and Supplies, under the direction of grounds and building Superintendent Frank Hoffman, will decorate the tree which will stand at the foot of the broad marble stairs which are a copy of those in the opera house at Paris, France. . . The tentative schedule calls for the tree to be lighted December 18. . . Governor Duff and members of his cabinet will be on hand for the ceremony which will include caroling. . . Each day during the last week before the Christmas holiday, capitol workers will gather in the rotunda for caroling.

The capitol hill grapevine reports that Bob Post, one time Pittsburgh newspaperman and publicity and promotion whiz kid for the Duff-Fine headquarters, is assured of a job in the state commerce department when Andrew J. Sordani succeeds Theodore Roosevelt III. . . Post was on hand in Florida to paddle his own canoe in the political millrace when Governor-elect Fine was the house guest of Sordani at Miami Beach. . . Post worked under the eye of publicity director Warren Wheaton during the fall campaign. . . Prior to his association with the Duff-Fine slate, he handled the attempt of the "Fighting Five" to unhorse Republican candidates endorsed by then county chairman M. Harvey Taylor in Harrisburg and Dauphin county. . . thus, in 1948, he was on the opposite side of the fence from Taylor while in the 1950 GOP ruckus was figuratively closeted in the same office.

## 'War Desk' Editor Of Press Is Dead

PITTSBURGH, Dec. 13.—(INS)—Robert G. Batman, 50, editor of the "War Desk" of the Pittsburgh Press, died of a heart attack Tuesday on his way to work. A native of Massillon, O., Batman was the son of the late Rev. L. G. Batman, who was pastor of the First Christian church in Youngstown for 30 years. Batman formerly worked for newspapers in Youngstown and Indianapolis and joined the Pittsburgh Press in 1935. The heart attack occurred as Batman entered the Press building.

## Former Wife Of F. D. Roosevelt Jr. Will Marry Again

WILMINGTON, Del., Dec. 13.—(INS)—Ethel DuPont Roosevelt, 34, divorced wife of Franklin D. Roosevelt, Jr., has announced plans to marry Benjamin S. Warren, a Grosse Point, Mich., attorney. The couple have taken out a license to wed in the Wilmington court house.

The former Mrs. Roosevelt, mother of two children, won a divorce from the congressman son of the late president at Minden, Nevada, May 21, 1949. Warren was divorced at Reno Sept. 22 of this year. No date was announced for the wedding. The ex-Mrs. Roosevelt gave her present address as Woodbury, Long Island.

## KILLED BY ROCK FALL

EMEIGH, Pa., Dec. 13.—(INS)—John Galczynski, 41, of Barnesboro, Pa., was killed yesterday by a rock fall in Victory Mine 17 of the Cherry Tree Coal Company in Emeigh. More than 500 miners have been killed in mining accidents during 1950.

## Build Two Huge Wind Tunnels For Army Development Center

PITTSBURGH, Dec. 13.—(INS)—Two of the most powerful electric motors in the world are being built by Westinghouse Electric Corporation for a huge new wind tunnel at the air force's Arnold engineering development center at Tullahoma, Tenn.

The gigantic motors, which develop more than the 85,000 horsepower of four big motors built by Westinghouse for the Grand Coulee dam, are part of a \$20,000,000 order placed with Westinghouse by the air force.

The new wind tunnel will be used to test full-sized jet engines, guided missiles and wing sections and fuselages of aircraft.

At its Sunnyvale, Calif., plant, Westinghouse will also construct the world's largest rotating machine to push compressed air thru the wind tunnel above the speed of sound.

## Council Approves Hospital Charges

Council met Tuesday in city hall and voted payment of \$80.50 to the Jameson Memorial hospital for treatment accorded Policeman Del

Weiss, injured when struck by an auto recently in Grant street.

The \$80.50 was above the workmen's compensation insurance received to cover the accident. According to Solicitor R. M. White, the city is required to pay for hospitalization of a policeman injured on duty.

Policeman Weiss received a

fracture of a vertebrae and is in a cast. He was removed to his Shaw street residence some time ago.

Now is the time for all good men  
to come to the aid of their pocketbooks

There's been a lot of talk in recent weeks about "the buying power of the dollar"—past, present and future.

We can't foretell the future—but we can tell you this right now:

You'll look a long way before you'll find a car that offers as much for the money as you can get in a 1950 Buick.

Close to half a million of these cars have been built and sold this year.

Close to half a million people have checked their features and prices against the field—and decided they'd better buy Buick.

As to prices—they start down below some sixes. And whether you price the SPECIAL, the SUPER or the ROADMASTER, you'll find, on a cents-per-

pound basis, that few other cars can touch them for value.

And this is for sure! When it comes to performance—ride—the way they handle and hold the road—and thrifty use of fuel and oil—Buicks have never been finer.

That's another way of saying that coil springs on all four wheels—Dynaflow\*—torque-tube drive—and Buick's high-compression, high-economy Fireball power produce an out-of-this-world combination.

So if you want your dollars to do extra duty—the time to act is now.

Look at the price tags—look at the features—sample the power and thrill that you get for your money—and you'll know what we mean.

\*Dynaflow Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

## Today's Fashion Flash

By PHYLIS BATTLE

NEW YORK, Dec. 13.—(INS)—The predominant page on the spring color calendar is painted in lilac and mauve.

Most experts on fashion say it's hard to pick a top shade of the year, but that the essence of orchids, violets and purple petunias will probably prevail. Especially in lingerie: nighties, negligees, blouses and high-fashion slips.

Runners-up in the color department will be rose shades, from dusty pink to deep American beauty. And runners-up to the runners-up will be the citrus shades, ranging from yellow to a tangy tangerine.

As predicted before, now and ad infaschionitum—the color combo of the year will be black frosted with white, and white peppered with black!

## Fine Would Support Free City College For Philadelphia

PHILADELPHIA, Dec. 13.—(INS)—Governor-elect John S. Fine has pledged that his administration will "cooperate to the fullest to establish a free city college in Philadelphia."

Fine told the Golden Slipper Square club last night that the state must guard the health of its young and "see that they are given the best educational advantage possible."

## Franchot Tone Wins Custody Of Sons

SANTA MONICA, Calif., Dec. 13.—(INS)—Actor Franchot Tone and his two young sons were reunited today after the handsome screen player won custody of the youngsters in Santa Monica superior court.

## Contempt Citation Is Recommended For Joe Adonis

WASHINGTON, Dec. 12.—(INS)—Bigtime gambler Joe Adonis refused to answer pertinent questions in the Senate committee inquiry Tuesday and his citation for contempt of Congress was promptly recommended.

Adonis, appearing before the Kefauver crime investigating committee, was accused by Chairman Kefauver (D. Tenn.) of "an unbelievable lack of co-operation."

The well-groomed but tight-lipped witness specifically refused to answer questions regarding possible connection with bookmaking, slot machines, organized prostitution and the numbers racket.

However, he denied that he had any connection with dope peddling. He admitted that he had known bookmaker Frank Costello and ex-vice overlord Charles (Lucky) Luciano "for 20 odd years," but refused to say whether he ever had done business with him.

Earlier, the committee threatened a contempt citation against Salvatore Moretti, who is under indictment on gambling charges in New York and New Jersey. Moretti refused to talk about his income, which the committee said totaled \$84,000 in 1949.

## Tobin May Name Committee To Attack Manpower Shortage

CHICAGO, Dec. 13.—(INS)—Robert C. Goodwin, executive director of the Office of Defense Manpower, predicts Labor Secretary Tobin will name a national labor management committee this week to attack a developing manpower shortage.

Goodwin told a Chicago audience Monday that the shortage will become critical in the next few months because "we will not have as many men reaching the age of 19 as we had during the 1940-45 period, and that is the age group for which there is greatest demand by the military and industry."

The manpower chief, speaking at conferences of the production and marketing administration and the American Management Association, estimated that the shortage of defense workers may continue for eight years.

## Chamber Of Commerce Campaigns To Cut Non-Military Funds

WASHINGTON, Dec. 13.—(INS)—The Chamber of Commerce of the United States launched an intensive campaign Tuesday to cut non-military government spending by at least several billion dollars.

The Chamber set up a special committee to work on the reduction. Chairman is Russell C. Harrington, a certified public accountant. The Chamber says "has a broad knowledge of government finances."

Present and future requirements or greatly enlarged military spending mean that as individuals we shall have to forego many of the things we have considered as essentials. That means a tightening of belts in all the areas of our economy.

"It is imperative, therefore, that the government, too, cut down on unneeded spending. Within the last two years... the federal budget for purely domestic programs... has jumped from \$6.4 billions to a total of more than \$10 billions. It is incredible that the citizens of this nation have accepted that circumstance with so little protest."

## Says Russia Now Has 35 Atom Bombs

LONDON, Dec. 13.—(INS)—Kenneth Decourcy, editor of the British magazine Intelligence Digest, asserted today that Russia has a current stockpile of 35 atom bombs and aims to have 300 by the end of 1954.

Decourcy, who reported the first atomic explosion in Soviet territory, said that the Russians have been producing four A-bombs a month since September of 1949 but claimed that a number had been used up in experimentation.

## Lions Hear Of Cave Structure

Edward D. Fritz  
Tells Experiences

New Castle Lions club members were addressed by Edward D. Fritz, Penn Power Company employee, who took part in the dramatic rescue of three young men, who were trapped in the Harlansburg caves when their lights failed them, two months ago, at the weekly luncheon meeting of the club Tuesday noon.

Mr. Fritz told of exploring the caves with a companion just a day or so previous to the rescue, and of the nature and construction of the caves.

### Formed Years Ago

He stated that Carnegie Tech scientists, who have visited and explored the caves, are of the opinion that they date back to a period when the ocean covered this territory, as there is evidence of erosion by both wind and waves, on the rocks inside the cave.

They are of the opinion that later on, the area was covered by glaciers. There are no large rooms, which have as yet been discovered, and the passageways are for the most part just fissures between the rocks, which are of sandstone and limestone formation. Fossils of animal and plant life have been discovered, he stated, the animals apparently having been small ones about the size of a dog.

How far back the caves go is not known, the deepest exploration so far having been around 1,600 feet. However, it is believed that they extend as far as Kennedy's Mills. In the future, he stated, it is believed there may be some important discoveries made there.

Some of the rooms, which he visited, he stated, had caved in by the next day, when he was in the inside in the rescue attempt, the roof having evidently been loosened

by the blasting and vibration caused by the work of bulldozers overhead.

### Plan Coming Events

He stated that he hopes to be able to enter the caves again sometime and to take pictures of the formation, which show some beautiful stalactites and stalagmites.

There may also be some additional entrances found, he stated, as there are numerous bats inside the place, which apparently do not enter and leave by the openings uncovered by the recent road construction.

Plans were announced for the start of the Green Pennant campaign in the schools of the city and county, and also for the annual dinner party for the blind, which will take place on Wednesday evening, December 20, at 6:30 o'clock in Trinity Church, with Rev. Fr. Ralph D. Hovencamp and John R. Butz in charge.

The regular meeting for next Tuesday had been cancelled because of the Blind party.

### POST OFFICE FORCE GROWS

(Continued from Page One)

this year, and that the office will be closed Saturday afternoon, December 23, and also on Sunday, December 24, so it behooves them to do their Christmas mailing earlier this year.

Christmas cards for distant points should be in the mail not later than the end of this week, and packages should be sent as quickly as possible in order to avert a bottleneck at the big terminals such as Cleveland, Pittsburgh, New York, etc.

By mailing now, patrons are assured that these parcels and cards will reach their destination in time, instead of after Christmas.

### RECEIVES ONLY \$278

In the list of city salaries published yesterday, the salary of the health superintendent was given as \$298, when it should have read \$278. The error was made in the finance department when the list was compiled.

## NO! KISS ME NOT!

Dick Morgan portrays Douglas Schaeffer and Ronald Stelter takes the part of Philip Peabody. The play will be seen at 8 p. m. Thursday evening on the stage of Shenango High school.

# Hornets Hand Barons Defeat

(By International News Service)  
It took more than three years and 116 American Hockey league games to do it but Gil Mayer, young goalie for the Pittsburgh Hornets, did it.  
The 20-year-old, 130-pound goaltender last night handed the Cleveland Barons their first shut-out at home since March 15, 1947. And it was the second straight whitewash job turned in by Mayer, now the league's top goalie. He blanked Hershey, 3-0, last Saturday.

**Good Defense**  
The Hornets, who have the best defense mark in the AHL, showed some offensive power in outplaying and outshooting the Barons who lost a chance to increase their lead in the league's western division.

The victory was Pittsburgh's first one over Cleveland in four tries this season.  
The Hornets play host to St. Louis, Hershey goes to Buffalo and Providence visits Cincinnati in league games tonight.

Andy Phillip led the Philadelphia Warriors to their ninth consecutive home victory last night as the Warriors trounced the New York Knickerbockers, 10-1 to 9-1. The former Illinois whiz-kid

scored 24 points for the second place Philadelphia, hitting with 10 to 13 shots taken from the floor.  
Vince Boryla was high man for the Knicks with 26 points.  
The Celtics Wins  
In the battle between the two leading teams in the National Basketball Association, eastern division leaders, Boston's Celtics, topped the Fort Wayne Pistons, top rung team in the western division, 87 to 81.  
The Indianapolis Olympians eked out a 75 to 74 win over the Tri-Cities Blackhawks, and the Rochester Royals trimmed the Baltimore Bullets, 102 to 87.

**CATCHES NICE MUSKIE**  
Dick Irons, Meadville, caught a 44-inch, 28 pound Muskies in French Creek at Cambridge Springs. George Barrett caught a nice one in the same creek some years ago.

## Census Bureau Says You're At Least \$1,865 In Debt

By WILLIAM KERWIN  
(U. S. Staff Correspondent)

WASHINGTON, Dec. 13.—You are at least \$1,865 in debt, whether you know it or not.

The \$1,865 is the share of each man, woman and child in the United States in the public debt, federal, state and local. And the debt is going up.

The census bureau estimated today the nation had piled up a whopping debt total of \$281,004,000,000 as of June 30—just \$4,340,000,000 below the wartime peak year, 1946.

Stepped-up military spending since the Korean war is sure to increase the country's red-ink financing position and the per capita average theoretically "owed" by each American.

The latest census report showed that state and local government indebtedness is now at an all time high but federal debt is still short of the wartime record.

Census estimated the federal government owed 257 billion, 357 million dollars last June as compared with 269 billion, 422 millions four years ago.

State governments had five billion, 323 million dollars of debt and local city authorities 18 billion, 324 millions.

Census put the debt situation another way. If the total was split evenly among each American you would owe \$1,708 for federal, \$35 for state and \$122 for local government indebtedness.

The bureau said the per capita split on local government debts is now the highest since 1932 when it amounted to \$134. Total state and local indebtedness, rising steadily since World War II, however, is now at an all time peak.

Census said: "City governments account for 10 billion, 100 million dollars, or 43 percent of all state and local public debt. Of this amount, nearly half was incurred to finance utility-type enterprises which are generally supported by charges for services."

**OBJECTIONS CAN BE MADE**

December 19 has been designated by city council as the time for the hearing of objections to assessments made for improvement jobs as follows:

Sanitary sewer in Myer avenue; sanitary sewer in Gretchen avenue; sanitary sewer in Wooley avenue; grading of Gretchen avenue, and construction of curbs in Cascade street.

President Thomas Jefferson was a skilled violinist.

### Police Officer To Be State-Wide Volunteer Policemen

Robert D. Hanna, police chief, is receiving signed applications from city policemen, agreeing to become "volunteer police", with state-wide powers, should war break out.

The applications will be sent to Governor James H. Duff for approval.

During World War II, members of the police force were clothed with such powers.

The purpose is to exercise a vigil against sabotage, and other acts detrimental against our country.

The applications when approved gives the police the authority to make an arrest anywhere in the state.

### West Pittsburgh Has Honor Roll

Arthur M. Gibson, principal of the West Pittsburgh school, announced today the honor students of the school from grades seven through eight in the school.

Honors went to Anthony Kos of grade eight; Cherie Edminston, Lorraine Fleeger, Martha Tomai and Lillian Vukovich of grade seven.

Receiving honorable mention were: Grade eight, Dawn Paukovich and Harry Giese; grade seven, Dolores Burke and Emeline Chizee.

Census said:

"City governments account for 10 billion, 100 million dollars, or 43 percent of all state and local public debt. Of this amount, nearly half was incurred to finance utility-type enterprises which are generally supported by charges for services."

## Chinese Just Keep Coming Despite Fire

WASHINGTON, Dec. 13.—(INS)—Wounded Americans just back from the Korean war said today the thing that impresses them most about the Chinese Communists is their tendency to "just keep on and not stop" in the face of withering air and ground fire.

Twenty-nine Marines and Navy men agreed almost unanimously that the Chinese Reds "don't seem to know enough to stop" when confronted with forces in a superior position.

The 29 wounded arrived in Washington Tuesday aboard a Trans-World Airliner Constellation from San Francisco for transfer to the Bethesda (Md.) Naval hospital. Marine Corporal James Sweeney of Miami, Fla., said the Chinese Reds appeared to be almost totally untrained in "evasive tactics."

Sweeney, a four-year Marine veteran who saw action at the Chosin reservoir, said the Chinese appeared to be indoctrinated only in "mass warfare." He added:

**Smart And Also Dumb**  
"The damned Reds are smart in some ways and dumb in others. I guess you would call it smart the way they were able to infiltrate and surround our battalions. But in other ways they sure seem stupid. We caught some of them one day and poured a steady stream of fire into their ranks. They just kept coming. It seemed they either didn't know how or didn't want to get out of the way of our fire."

Sweeney and other casualties of the Korean conflict reported that the average Chinese Communist has had six or eight years military service. None of the Korean veterans said they found evidence of women or particularly young boys in the Chinese ranks.

Marine Pfc. Gerald Fraynert of Newark, N. J., agreed. Fraynert shook his head in recalling that the Chinese Reds "just kept coming" when Americans started to fire upon them.

### WEDDING INFORMATION

"Please advise me as to the proper attire for the men at a 4:30 church wedding and if the mothers of the couple should wear long or street-length dresses. Also please tell me how the wedding party and the guests should be seated at the reception."

Answer: The bride and the groom should be seated at the head of the table, the bride at the groom's right—the best man at the bride's right. Bridesmaids and ushers, if any, should be grouped at the bride's end of the table, an usher and bridesmaid alternating on each side. The maid-of-honor should be seated at the groom's left.

At the opposite end of the table should be the bride's father with the groom's mother seated at his right. If the clergyman and his wife will be present, the wife should be to the left of the bride's father and the clergyman to the right of the groom's mother. Next to the clergyman should be the bride's mother and by her side the groom's father. More remote relatives and friends should be grouped toward the center of the table.

seating them if possible so that no two men nor two women are side by side.

Sometimes there is a separate bride's table at which the bride, groom and all of the attendants are seated. When this is so, the mothers and fathers, as well as relatives and friends are usually seated at a large table in another part of the room.

If the wedding is formal, the men of the wedding party, as well as the bride's father and preferably the groom's should wear formal morning clothes (stripped trousers, cutaway coats, etc.) And the mothers of both the bride and the groom should, preferably, but not necessarily wear long dresses.

# New Castle Edges Duquesne 48-46, In Two Overtime Periods

## Youngstown Script Rewritten With Sudden Death Attraction Tuesday

The only deviation from the Youngstown story written last Friday night by New Castle, in last night's wire finish, was the added attraction of the second overtime period, in which the Canes nipped Duquesne, 48-46.

John McKay, stepped into the substitute-hero role, by caging a fielder to throw the game into the first overtime, a free throw, to tie the game in the overtime, and the vital and climactic goal enabling the Canes to win in the sudden death period.

### Canes Lead At Quarter

New Castle moved to the front in the early stages, when Sansone pushed in three first quarter field goals. Vuchetich, a diminutive enemy forward, sank a foul shot to end the first period with New Castle leading 11-10.

Ray Latsko scored four fouls and a field goal in the second quarter while helping Boak and Marinelli sweep off rebounds, and the Canes extended their lead to eight points at halftime.

New Castle's man-to-man defense held Duquesne to a meagre seven point second period, as they ran the score to 25-17 at intermission.

The flashy and confident Little Dukes, finally righted themselves in the third period and closed the gap quickly, with Davis and Selznick in standout roles. Davis dropped in his fourth foul shot and the Dukes had sliced New Castle's halftime lead to 32-29 at the third quarter.

A slam-bang, wild and frenzied final stanza had fans in a state of delirium. Fred Duffy's successful free throw completed the Duquesne over-hauling process and the Hurricane was tied at 39.

### Vitale Fouls Out

Duke Vitale was sent to the bench after committing his fifth foul, and the game's lead then changed hands four times, until John McKay wedged his way for a layup shot that tied the score with but 25 seconds remaining.

Milanovich, coatless and limp, reflected the general feeling of every spectator. Latsko then left via the foul route. The first overtime period produced only four fouls, all successful. Selznick, McKay, Burstin, and Boak caged free throws in that order.

Duquesne gained the tip in the sudden death period but never a shot. John Sansone rolled one in and out of the hoop and the Canes lost the ball. A bad Duquesne pass placed McKay in the opportunist's position and his one

hand push shot was as good as gold.

### Second Win Of Season

New Castle's second win of the young season was a tallor made 48-46, overtime affair at the George Washington gymnasium. Both Duquesne and New Castle, connected 30 per cent of the time from the field. The Little Dukes, lost the game at the foul line, dropping in 14 of 25. The Hurricanes made 14 of 21.

New Castle's Little Breezes, were edged by the Duquesne jayvees in the preliminary, 37-34.

## Wampum Again Bows To Freedom, 64-63

Freedom annexed its second one point victory over Wampum this season Tuesday night when it edged the Indians 64-63 on the Wampum floor.

Just one week before, Freedom defeated Wampum 67-66 on the Freedom floor. In last night's game the Indians trailed at the half by six points, took a one point lead at the end of the third frame but lost it and never again were out in front though they were always within one or two buckets from the lead.

John Swoggers was high man for the Indians with 18 points and sunk 73 per cent of his attempted field goals.

Last Saturday night Wampum lost to Beaver 51-49.

### McCarick Named Scout By Pirates

The 31-year-old former player lives at Westbury, Long Island.

## Excitement To Reign Tonight In Mat Bouts

Schact, Etchison, Golden Hawk, Ford, Kovacs On Docket

Excitement will reign in The Arena tonight when eight heavyweight matmen engage in three sets, one an Australian tag match, another a 30-minute limit or one fall match and the third a one-hour time limit or one fall bout. Some of the grapplers are TV performers.

The main set to will find huge, bald-headed Fredrick Von Schact, a Milwaukee German, opposed to Ronnie Etchison of Missouri, who is reported to be a good wrestler.

According to some mid-west reports, Ronnie has displayed exceptional talent and supporters believe that within several years he may be "knocking at the champ's door, if not actually wearing the crown."

### Indian To Wrestle

Whether he is as good as his supporters claim remains for local fandom to learn. Von Schact may not be the greatest matman in the world, but he's plenty good enough to wrestle topnotchers, giving all of them a struggle.

Fans will see Golden Hawk, an Indian, for the first time. Against him will be a trial horse of grappling, Billy Venable, of Houston, Tex. Billy knows his holds, tricks, and often becomes villain-like in actions.

There will be plenty of hysteria when Bobby Ford and Sander Kovacs oppose Len Hughes and Joe Christie in the Australian tag match. It will be a debut for Christie, a former pugilist.

The Jefferson Athletic Club plans to admit ladies for 60c as an inducement to have more of them attend wrestling bouts here. A special section has been arranged where they will be seated.

The first bout will begin at 8:30 p.m. and all of the matches should be over at 10:30 p.m.

### Washington Bumps Beaver Falls, 36-11

George Washington junior high school defeated Beaver Falls junior high school 36-11 Tuesday afternoon on the George Washington floor.

Joe Lane, 6 foot 1 inch center, was the big gun for the Little Presidents. The lanky colored boy slipped in 11 field goals and five fouls for 27 points.

Coach Clark McClelland again cleared his bench, as the Washington cagers hung up their second straight win.
